

Shed No More for Cats

Available in: 60 & 90 [Fish Flavored Sprinkle capsules](#)

Tired of cleaning up and vacuuming unwanted pet hair? Pet owners' number one complaint year after year is the mess caused by pet hair and dander. You may not be the only one suffering. Chances are your cat is enduring discomfort and pain from excessive shedding. While trying to combat their own excess shedding, your cat may be gathering up large hairballs in their stomach which can be potentially harmful.

Shed No More's unique blend of Essential Fatty Acids, vitamins and minerals are specially formulated into delicious fish flavored sprinkle capsules that are easily digested to provide fast relief for you and your pet. Special hairball fighting ingredients have been added that are proven to increase palatability, soothe the stomach and aid in the digestion, breakdown and release of dangerous hairballs.

Virtually all cats shed. Some breeds will tend to shed more than others. Outdoor cats in many cases will grow a heavy winter coat, which they then shed in the spring and summer, whereas indoor cats tend to shed year round. Shedding is normal. It is triggered by hormones many times responding to exposure to sunlight and climactic changes. Shedding can also be caused by a lack of adequate diet and care. Excessive shedding can be unhealthy, cause pain & discomfort and lead to skin and health problems as well as the ingestion of potentially harmful hairballs. Broken or damaged hair can lead to even more shedding. PetLabs 360's Shed No More along with the adequate grooming and daily care routine will provide you and your pet the relief you need from non-seasonal and unnatural shedding.

Give your cat the treat that will restore their vibrant coat, reduce unnatural shedding and help control hairballs **Shed No More Plus Hairball Control for Cats!**

<TH< Guaranteed &>

Proprietary Blend (flaxseed meal, fish oil, borage oil, evening primrose and sunflower oil)	225mg

Arthogen For Cats

Available in: 60 & 90 Fish & Chicken Sprinkle capsules

Cats by nature are athletic animals that are most happy when frolicking and playing. Unfortunately, this high level of activity promotes tremendous wear and tear on their joints. Inevitably joints, ligaments and bones are vulnerable to damage and this can cause them pain and discomfort. Over the course of time, joints can degenerate and arthritic conditions develop. Thanks to Arthogen for Cats, there is now an easy to administer, affordable supplement for your cat that can help ease the pain and suffering associated with these changes. Made with high quality, Human Grade Glucosamine HCl and Chondroitin Sulfate, Arthogen for Cats' sprinkle capsules are specially formulated to help regenerate the cartilage, which acts as a 'pillow' in between the bones in the joint. When cartilage erodes, bone spurs and thickening can occur, which can cause pain, swelling and stiffness.

Your Cat may already be suffering and you don't even know it. Ask your Veterinarian today if Arthogen is right for your Cat. Since arthritis affects cats of different age and size, chances are Arthogen for Cats' may be the answer you are looking for to avoid the painful and degenerative symptoms associated with Arthritis. Formulated with a delicious Chicken and Fish flavor that cats love, Arthogen for Cats' sprinkle capsules can enhance any meal while providing your cat with the necessary vitamins and minerals to promote healthy joints.

Don't wait until it's too late, treat your pet to Arthogen today!

Arthogen for Cats' sprinkle capsules are specially formulated to help regenerate the cartilage, which acts as a 'pillow' in between the bones in the joint. When cartilage erodes, bone spurs and thickening can occur, which can cause pain, swelling and stiffness.
